

Commercial Efficient Water Heater Retrofit Program Terms and Conditions

1. OVERVIEW

The Commercial Efficient Water Heater Retrofit Program (the “Program”) offered by Pacific Northern Gas Ltd. and Pacific Northern Gas (N.E.) Ltd. (collectively “PNG”) is designed to stimulate investment in high-efficiency natural gas fired water heaters that reduce natural gas consumption, greenhouse gas (“GHG”) emissions and associated operating costs in apartment and strata buildings (condominiums), as well as in commercial, institutional and industrial buildings and/or facilities.

The Program is applicable to onsite water heater installations in the water heater replacement market. A rebate is provided to qualifying participants (each a “Participant”) to offset a portion of the higher cost of purchasing and installing high, versus standard, efficiency water heaters. If you are installing, replacing or upgrading a domestic water heater in your building or facility, you may qualify for a cash rebate of up to \$2,000 by installing an eligible high-efficiency natural gas fired hot water heater (an “Eligible Water Heater”).
